

Professor Jugdutt (Jack) Singh

Professor Jugdutt (Jack) Singh is currently the Director Digital Innovation of Technology at the Swinburne University of Technology in Victoria, Australia. Professor Singh is no stranger to Fiji National University; he is a graduate of the Derrick Technical Institute (now FNU's College of Engineering, Science & Technology). He graduated with an Ordinary Technicians Diploma in Electrical & Electronic Engineering (City & Guilds) in 1974. Professor Singh graduated with honours that opened the doors for his admission in the Bachelor of Engineering programme in the United Kingdom.

After graduation from the Derrick Technical School, his career escalated at the Fiji Institute of Technology as the Head of School for Electrical and Electronic Engineering where he served for 6 years and later was appointed Vice Principal/Deputy Director of the Fiji Institute of Technology. He received his Bachelor of Engineering with First Class Honors in Electronics Engineering from United Kingdom, Master of Science in Electrical Engineering from Canada and PhD in Microelectronic Engineering from Australia.

Professor Singh has been involved in translational research and commercialization projects of national/international significance for number of years. He has widely published his findings as book chapters, journal articles, patents, peer reviewed conference papers and regularly delivers keynote/ invited talks at scientific and business events.
